LEAGUE LEADERS GET TWO FROM FORESTERS

The Colts took two of the three games from the Foresters in a city league match at the Drummer alley last night. Deschler of the Colts was high man with 217. The Foresters had a handicap of 28.

The Grocers will meet the Oil company tonight.

BIG FIGHT CARD ON AT ROSWELL FOR THIS EVENING

Roswell, N. M., April 16.—The stage is all set for the fight of the century—in this neighborhood. Tonight at the Armory what the promoters confidently assert will be the greatest fight ever pulled off in the history of Roswell will take place. Herick and Gordon hook up for ten rounds at 160 pounds.

There will be three other bouts on the card, and they all promise keen sport for fight fans. Connolly and Langdon will debate the featherweight championship of New Mexico for ten rounds, unless one of the other puts an abrupt period to the argument with a knockout. In the semi-windup Staats and Fitzcarrons will go on for six rounds. The curtainraiser will be a meeting between two young heavies, Smith and Decker, who are scheduled to whale one another for four rounds.

GOULD AND HUHN EASY WINNERS AT BOSTON

[By Leased Wire to Evening Herald.]
Boston, April 16.—Jay Gould and W. H. Huhn, the national court tennis champions, met Stockton and Derby of Boston today in the open match of the national double championship tournament.

The opening match proved a one-sided affair. Gould and Huhn winning in straight sets. The feature was the fourth game in the third set, which Gould won with four brilliant place shots. Summary:

First round: Gould and Huhn, New York, defeated Stockton and Derby of Boston, 6-1, 6-4, 6-1.

Stevenson and Blanchard, Boston, defeated Cutting and Cutting, New York, by default.

C. E. Sands and Payne Whitney, New York, defeated Gambrell and McKean, Cambridge, 6-0, 6-0, 6-1.

PREMIUM FOR SEATS AT FEDERAL GOLF IN ST. LOUIS

Huge Crowd Pours Into New Ball Park and Dollar Seats Sell Readily at Five Bones Per.

[By Leased Wire to Evening Herald.]
St. Louis, April 16.—Ten gates to the Federal league park were opened shortly after noon and a crowd that had waited since 9 o'clock poured in. All reserved and box seats were sold several days ago and the crowd scrambled for seats in the bleachers and grandstand. At the downtown office two to five dollars were offered for one-dollar box seats.

MORE HARD LUCK FOR CLEVELAND AMERICANS

Manager Birmingham Ordered Out of the Game and Pitcher Steen Retires With a Broken Finger.

[By Leased Wire to Evening Herald.]
Chicago, April 16.—More hard luck struck the Cleveland American league team today when the club physician ordered Manager Birmingham to stay out of the game on account of injuries received yesterday and sent Pitcher Steen home with a broken finger.

The middle finger of Steen's pitching hand was broken in yesterday's game when it was struck by a pitched ball. Lelievre probably will play in Birmingham's place.

Probable Have Another Hearing.
Washington, April 16.—Advocates of prohibition by constitutional amendment had a hearing today before the senate judiciary committee, where such a proposal is favored by Senator Sheppard. The testimony followed the lines of that given yesterday before the house committee on like resolution by Representative Hobson.

Representatives of the German-American and Jewish organizations will be heard in opposition on Saturday, April 25.

LINING 'EM OUT

With Claude Cooper and Steve Evans practically sure of two outfield positions on the Brooklyn Fed team, either Danny Murphy or Artie Hoffman will have to go. Maybe both if Shaw plays as well as last year. Danny might be sent to some Old Man's home. He would strengthen any team in the octogenarian class.

The two Dunks, father and son, both took part in a game played by the Baltimore International league team the other day. Manager Dunn playing second base and his boy leading off and playing left field. Jack Dunn must begin to feel as old as Jim O'Rourke.

Walter Maraville, shortstop of the Boston National league team, has been persuaded by Manager Stallings to postpone his marriage until after the close of the coming season. Stallings believes bridegrooms are a hindrance to a baseball club. Wonder what the bride-to-be has been thinking of a guy who'll put his wedding off simply because the bugs are superstitious.

Though only 22 years of age, Wilbur Cooper has the distinction of being the veteran left-hand pitcher of the Pirates outfit. The passing of Babe Robinson in the deal with the St. Louis Cardinals gives him this distinction. The vet won yesterday.

"When July rolls around and the players line up for their salaries, then it will be time enough to ask me what I think of the Federal league," are the words of wisdom that come from Charles Comiskey, owner of the White Sox. Maybe by that time Commy will be too full of vexation for utterance.

Notification has gone out from the national commission to all club owners calling attention to the rule in the fraternity agreement that provides that fences or stands in line with the plate shall be painted green, so that the players' curious batting averages shall not be damaged. Good rule but a few more are needed. There ought to be legislation straightening out the kinks in curves and reducing the legal speed on straight balls to four miles an hour.

The charred contracts of the players of the St. Louis Federal club were recovered from the debris of the Missouri Athletic club fire in St. Louis. The documents were given to Mordecai Brown for safekeeping. All of the clothing and other effects of the Fed's managers were burned. Info fragments and nothing was recovered but these papers.

Catcher Hildebrand, who caused something of a laugh when he asked Manager Huggins to double his salary, though he had a batting average of only .161 last year, and who jumped to the Federal when Huggins sold him to New London of the Eastern association, has already been dumped and doubtless will be glad to accept a class B berth.

Arthur Shafer, who complains that his hair turned gray while he played with the Giants, is not the first ball player to have suffered from the inroads of silvery locks. Tish Speaker is already iron gray and getting whiter. Larry Doyle has a fair supply of gray hairs, and Bones Wagner is quite a snowbird. Baseball gray hairs do not come from worry, as Shafer supposes, but from the practice of wearing tight caps.

CRUCE MAKES GOOD HIS BLUFF AT TULSA

Oklahoma Governor Forces Tulsa Jockey Club to Declare Race Meeting Off; Crisis Is Not Yet Over.

[By Leased Wire to Evening Herald.]
Tulsa, Okla., April 16.—As the result of the refusal of Adjutant General Canto to withdraw state troops from the Tulsa Jockey club's grounds R. J. Allison, president of the club, today announced the abandonment of the race meeting which began here Monday. The race course has been under martial law for several days because of the failure to discontinue betting.

Crisis Fears at Track.
Tulsa, Okla., April 16.—A crisis is expected in the fight between the state authorities and the Tulsa Jockey club at the Tulsa race course this afternoon. With the course under martial law by order of Governor Cruce and in the face of threats by Adjutant General Canto that he will shoot anyone if racing is attempted, officials of the club today made preparations to continue racing as if nothing had happened.

At the race the every entrance was guarded by soldiers and some save horsemen were permitted to enter the grounds. These were searched for firearms.

It is said attorneys are seeking supreme court intervention at Oklahoma City to prevent Governor Cruce from enforcing the state anti-gambling law.

HAMILTON DEFENDANT IN SUIT FOR \$25,000 FILED BY FEDERALS

Kansas City, April 16.—Erl Hamilton, pitcher, who jumped from the St. Louis American league team to the Kansas City Federals last week and rejoined the St. Louis team yesterday, was made the defendant in a damage suit for \$25,000 filed in the circuit court here today by the local Federal club. The petition charges Hamilton with violating a contract signed with the local club. It further alleges that \$500 had been advanced to Hamilton and that his contract called for \$21,000 for three years service. The plaintiff, according to the petition, suffered a great loss through Hamilton's return to the St. Louis team, "as he is a wonderful pitcher and a great drawing card."

WESTERN LEAGUE OPENS SEASON TOMORROW

Des Moines, Iowa, April 16.—L. N. O'Neil, president of the Western league, had a conference with umpires of the league this afternoon. He will attend the opening of the league season tomorrow between the Omaha and Des Moines clubs.

DEPARTMENT HAS BIG UNDERTAKING IN EDUCATING FARMERS

Bureau Chief in Charge of Organizing the Agriculturalists Tells of Many Difficulties Encountered.

AMERICAN FARMER HAS TOO MUCH INDEPENDENCE

Believes in Following His Own Individual Course at All Stages of the Game of Producing and Marketing.

[By Leased Wire to Evening Herald.]
Chicago, April 16.—The problem confronting the rural organization service of the department of agriculture was described today by Dr. T. H. Carver, director of the service, as two-fold: teaching the farmer how to earn a satisfactory income and then how to spend it. Dr. Carver spoke of his work at the conference on "Marketing and Farm Products." A very little study of farmers' organizations in this and other countries, he said, would convince any one that the effective organization of the rural interest was one of the most difficult problems of the world.

The chief difficulty, he declared, was due to the fact that the farmers are the most numerous economic class in the country. They are scattered, they have a wide diversity of interests and many antagonisms, and the process of selection tends to leave in the country those who are strongly individualistic, who prefer to be their own bosses, and who have the capacity for self-direction.

"All of these people," he continued, "in whom the pain of a new idea is excruciating, who find it a great hardship to have to decide what to do next, will find farm life unendurable, that perhaps more than any other single fact characterizes the life of a farmer. His work never can be standardized. He must always be in the act of deciding what to do next. His work from day to day, even from hour to hour, has to be adjusted to the conditions of soil and climate, the exigencies of land and animal life, etc. This is no kind of a life for a man who is only doing what he is told and incapable of deciding himself what is the next thing to be done. This process of selection, as I said, makes a rural population very independent in spirit and temperamentally difficult to organize."

"Another psychological difficulty perhaps grows out of the fact that the farmer's success has in the past depended very little upon his mental adaptability to other men. He has had to control the forces of nature rather than the forces of society. He is therefore less adept in those arts and graces which adorn social life, simply because his living has not depended upon it."

"The idea seems to prevail at the present time," said Dr. Carver in conclusion, "that all that is necessary is to enable the farmer to grow his products and to buy and sell to advantage in order that his income may be increased. I dare say that most people who are thinking on this problem today believe that the problem is solved when the farmer has been assured a satisfactory income. I wish to insist, on the contrary, that this is only half the problem. Paradoxical as it may seem, it is a matter of actual observation that the sections of the country where the land is richest, where crops have been most abundant, where land has reached the highest degree of prosperity, are the very sections from which the farmers are retreating from the farms most rapidly and leaving them to tenants."

"We may as well face the fact first as last that there are only two things that will keep the people in the country. One is poverty, or the inability to live in town. The other is an attractive country life which will induce people to stay in the country even though they are financially able to live in town. The only thing, therefore, is to make country life sufficiently attractive to keep people in the country even when they are prosperous enough to live in town."

"This will indicate that the problem of organizing rural interests is very much wider than the problem of marketing or of purchasing of rural products and of purchasing combined."

"I have classified problems calling for organization under the following outlines: (1) For increasing the farmer's income; (2) the market of farm products; (3) the purchasing of farm supplies; (4) the securing of adequate credit."

"(5) For better living conditions in the country; (6) education; (7) communication; 1, roads; 2, telephones; (8) sanitation; (9) recreation; (10) beautification."

An Oregon inventor's windmill is mounted on a tubular column instead of a tower and its blades, moving horizontally, are shielded when moving against the wind by a screen that is governed by a wind vane.

THINKS CONFERENCE AT DENVER WILL BE FOR GOOD OF WEST

Former Governor Herbert J. Hagerman of Roswell is spending the day in Albuquerque returning home from Denver, where he attended the governors' meeting and irrigation conference called by Secretary of the Interior Lane.

"While the conference should have always greeted the sight of one of our loaves of Bread, but this is as nothing to the exclamations of delight that follow the first taste of it. You will appreciate the first bite, and want slice after slice of it. Yet it is as satisfying and filling as it is pure and wholesome. After the first loaf you will always order it if you are a lover of good bread."
